**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Winds will be strong over the summits and on ridges exposed to the westerly wind. It will also become gusty at lower levels at times, especially during the afternoon. High UV levels are expected so it's worth wearing sun protection.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:

Forecast for Saturday 14 May 2022

Weather: Generally cloudy through the early hours, with poor visibility developing on many hills and mountains. Cloud lifting through the morning with sunny spells developing quite widely. Remaining dry through the afternoon with sunny spells at first but probably becoming cloudier by the evening, with a chance of heavy showers or thunderstorms arriving from the south by dusk.

Maximum wind: 5-10 mph from variable directions.

Chance of cloud-free hill tops above 600m: 40% rising to 90% by late morning.

Low cloud and visibility: Periods of cloud above 300-500m at first. Cloud lifting and breaking and clearing all summits by mid-morning. Very good visibilities outside of the cloud with distant hills clearly visible.

Temperature: **Valleys:** Plus 7 Celsius rising to plus 19 Celsius.
At 600m: Plus 8 Celsius rising to plus 15 Celsius.
Freezing level: Well above the summits.
